

Congressman Steve King (R-IA) tonight made the following statement following the passage of the liberal health care bill.

“The majority of Americans, including the tens of thousands of patriots who poured into Washington, DC this weekend, will not stand by while Barack Obama and Nancy Pelosi tear the Constitution to shreds. This bill forces Americans to pay for other people's abortions, puts the government in charge of 18 percent of our private sector economy, provides health care benefits to illegal immigrants, cuts half a trillion dollars from Medicare and diminishes our liberty.

“Americans across the country are outraged that liberals have made an unconstitutional bill full of special interest bribes the law of the land. Democrats will pay a price for their overreach. This fight is far from over. Now the work begins to repeal this monstrosity and restore the principles of freedom that made America a great nation.”
